Subject: Video Call to Review EPA Comments and Scope Supplement: August 19th: 10:30 am pacific

Dear all:

Based upon extensive back and forth (thank you, Kathleen and others), we are firming up the logistics to get with EPA, favoring the use of video rather than having a bunch of EPA folks having to drive from SF up to SAC.

We will have a **video conference call tomorrow from 10:30 to 12:00 pacific time** with EPA Region 9 representatives, led by Kathleen Johnson. In Sacramento, we will make our NOAA conference room at 650 Capitol Mall, 5th floor, available as a gathering place with a video which we will hopefully be syncing with the EPA video system of Region 9 in SF. We have also reserved a **conference line** for the meeting as well: **503-326-7666**.

Thank you,

WS

Dear Kathleen (Goforth) and all:

I had sent an email to Kathleen Johnson and Jane Diamond earlier this week, but having not heard back -- likely due to August vacations -- I will broaden the request.

We'd like to meet with EPA folks either next Wednesday afternoon or Thursday am to discuss further your comments on the BDCP and the DEIS and to scope the topics to be tackled in the supplemental NEPA documents. We are intending to publish a brief announcement of our decision to supplement by no later than the 27th, and we therefore wish to coordinate it with you closely.

It appears that some of us will be meeting with certain NGO representatives from 1:30 to 3 pm Wednesday afternoon in Sacramento. Therefore, it would appear that a 3:30 to 5:30

time slot might work from our end, but this may be deeply inconvenient for San Francisco based folks. We also expect phone participation from a number of our DOI and NOAA colleagues in DC, and hence calling into a discussion is certainly an option.

Kathleen, could you check around with your colleagues and let us know if something Wednesday or Thursday am might be feasible? Also, please advise if you have any perspectives on our inviting the senior state people to join us and their top NEPA lead consultant. We are for timing purposes trying to work in tandem with the state; hence the inquiry.

Thank you,

WS

Mr. Wulff:

Thank you for the opportunity to meet yesterday in Sacramento to discuss the major issues that EPA has identified in our review of the Draft Environmental Impact Statement for the Bay Delta Conservation Plan. As discussed during that meeting, there are a number of matters that we would like to follow up on with you and the other federal lead agency representatives. Accordingly, EPA requests an extension of 30 days to submit our comments on the Draft EIS.

We appreciate your consideration of this request and look forward to hearing from you on Monday.

Kathleen Martyn Goforth, Manager

Environmental Review Section
